[About Us and Latest News](#)

The company was established in 2019 by Mark Smyth pre-press engineer, having previously worked together with Agfa. The pre-press and print knowledge and experience of the founder has allowed the company to grow and prosper since then.

The company provides a high level of service and systems, both new and reconditioned.

Print Better is a complete provider of Large Format Printers and Colour Control Systems, from a single Mac to complete workflows and CtP systems.
